PROFESSIONAL SUMMARY

Motivated B.Tech ECE student with hands-on experience in Python, Django backend development, and building AI-powered applications. Skilled at using modern AI tools to accelerate development and solve real-world problems. Built production-style projects using REST APIs, JWT authentication, and PostgreSQL. Actively seeking Python Developer or Backend Engineer roles where I can learn fast, contribute from day one, and grow with the team.

TECHNICAL SKILLS

Languages Python · Java · JavaScript · SQL · HTML5 · CSS3

Frontend React.js · Tailwind CSS · HTML · CSS · Vite

Backend Django · Django REST Framework · FastAPI · REST APIs · JWT Auth · PostgreSQL

CS Concepts OOP · Data Structures · DBMS · Computer Networks · API Design

AI Tools ChatGPT · Claude AI · Perplexity · Blackbox AI · GitHub Copilot · Gemini · v0.dev · Cursor

Tools VS Code · Git · GitHub · Docker · Postman · Linux · Nginx · MS Office

PROJECTS

FitFusion AI — AI-Powered Fitness Coaching Platform

[View on GitHub](#) ■

React · Vite · Tailwind CSS · Django · DRF · FastAPI · PostgreSQL · OpenCV · MediaPipe · Scikit-learn · Docker · Nginx

- Architected a **production-grade microservices platform** with React/Vite frontend, Django REST backend, and FastAPI ML service — enabling decoupled, independently scalable services communicating via internal APIs.
- Engineered **JWT-based authentication**, user profile management, and role-based access control across the full stack for secure multi-user support.
- Built a **weekly analytics dashboard** with progress charts, calorie tracking, BMI prediction APIs, and AI-powered workout recommendations powered by Scikit-learn models.
- Implemented **workout tracking, nutrition logging, and image upload** pipelines with persistent PostgreSQL storage and RESTful CRUD endpoints.
- Designed **Dockerized deployment architecture** with Nginx reverse proxy, simulating a real-world production deployment environment.

Personal Portfolio Website — Futuristic Developer Portfolio

[View Live Portfolio](#) ■

HTML5 · CSS3 · JavaScript · Tailwind CSS

- Designed and shipped a **fully responsive portfolio** featuring glassmorphism UI, neon gradient animations, and smooth transitions — achieving a modern, premium developer aesthetic.
- Integrated a **project showcase, skills visualization, and interactive UI components** with dark theme and mobile-first responsive layout.

Student Management System — CLI Application

[View on GitHub](#) ■

Python · JSON · File I/O · OS Module

- Developed a **command-line CRUD application** with persistent JSON-based data storage supporting add, search, update, and delete operations on student records.
- Implemented robust **file handling and modular code design**, reinforcing core Python programming patterns and data persistence concepts.

EDUCATION

Qualification	Institution	Score	Status
B.Tech – Electronics & Communication Engg. (3rd Year)	JIS College of Engineering	CGPA: 7.34	Pursuing

Higher Secondary (12th)	Patna Muslim High School	67.2%	Completed
Secondary (10th)	Swami Vivekanand High School	62.2%	Completed

STRENGTHS

- Good Communication Skills
- Quick Learner
- Team Collaborator
- Adaptable
- Problem Solver
- Disciplined & Self-Motivated

LANGUAGES

- English
- Hindi
- Bengali

CERTIFICATIONS & ACHIEVEMENTS
